SUMMARY

With successfully developing interactive web applications, leveraging cutting-edge technologies and mentoring junior and senior developers, I have significantly improved organizational scalability, user experience and UI/UX design, culminating in a **50% increase in user satisfaction**, **80% increase in product efficiency**, and a **25% improvement of client-side scripts**.

TECHNICAL SKILLS

Languages: JavaScript, HTML / CSS3 , C++
Frameworks: React.js, Next.js, Vue.js, Nuxt.js, Node.js, Express.js, PWA Studio, React Native, Tailwind CSS, Material UI, Bootstrap, ShadCDN
State Management Framework: Redux, Jotai, Zustand, Context API, VUE Store
Developer Tools: Git, Postman, Chrome Developer Tools, Figma, Adobe XD, Redux tools, Framer
Competencies: GenAI, Model Fine Tuning, OpenAI, AWS, Docker, Github Actions, YAML, MVP Release Coordination, Team Management, Product Development, Leadership,

EXPERIENCE

Schbang Digital Solutions   Nov. 2022 – Present
Frontend Lead
- Led training sessions on core concepts, best practices, and advanced features for the development team.
- Efficiently managed & resolved complex escalation issues, ensuring timely solutions and maintaining high quality standards.
- Implemented feedback and performance review processes, boosting team communication and efficiency by 40%.

Senior Engineer
- Conducted thorough code reviews to ensure adherence to best practices, coding standards, and project requirements, resulting in improved code quality and maintainability.
- Improved the efficiency of legacy codebase, increasing the page performance by 30%.
- Implemented ci/cd for effortless and faster deployment. Decreasing the project deployment time upto 60%.

Junior Engineer
- Provided guidance to fellow developers navigating the transition from React to Next.js projects with assurance and clarity.
- Developed Progressive Web Applications (PWAs) using PWA Studio and Magento, enhancing user experience and performance.

Crio Do   Sep. 2021 – Oct. 2022
Junior Developer
- Worked collaboratively with cross-functional teams to develop and refine educational tools, improving overall project outcomes and user satisfaction.
- Engaged in ongoing professional development by staying updated with the latest JavaScript trends and technologies, contributing to innovative solutions in projects.

PROJECTS

Next JS Template Generator : https://github.com/JRanjan-Biswal/create-nextjs-template
  * Developed a Next.js template generator that reduces project setup time by 50% by automating configuration and dependency management, minimizing common setup errors and streamlining the development workflow.

Ai chatbot - Ollama : https://github.com/JRanjan-Biswal/local-ai-agent-ollama
  * Built an AI chatbot using Ollama that runs entirely locally without requiring any API calls
  * Designed the chatbot to be easily trainable on custom datasets

XCamper : https://xcamper.com/
  * a vehicle booking web application using **Next.js** for server-side rendering and optimized performance
  * Integrated NextAuth to handle secure user authentication, including login and signup workflows
  * Implemented Firebase Cloud Messaging (FCM) to enable real-time push notifications for booking updates and user alerts
